

CMS – Content Management System

Inflow has great experience with consultancy on choosing the right Content Management System in very different cases and in connection to very different demands from very different business situations.

It is a big challenge to find the right CMS to meet the concrete needs and demands. When we recommend a CMS it is always on the basis of flexibility and the business goals we want to achieve.

What you get:

- Professional independent consultation on the field of Content Management Systems
- Tailor made decisions regarding your company's specific technological situation
- Access to expert knowledge about the technical possibilities in different Content Management Systems
- Total overview of all your relevant possibilities

Your advantages:

- Get a flexible CMS that can be optimized to generate maximum online profit and that will be competitive both now and in the future
- Optimize business processes of the company and minimize resource use with an effective CMS
- Get vital data updated easily and automatically on your website
- Spend a minimum amount of time and resources on updating on your website (text, pictures, video, products, prices, etc.)
- Create additional sales from a sales optimized website
